GENERAL INFORMATION

FADE AWAY is a liquid, concentrated microbial blend designed for use in all agricultural crops. **FADE AWAY** contains a specific combination of enzymes and microbes selected to accelerate the breakdown of crop residues, improving field conditions and nutrient cycling for the next cropping system.

DIRECTIONS FOR USE

Can be applied as a liquid broadcast in early fall applications after harvest or in spring applications. Can be applied as a standalone pass or in conjunction with a herbicide or fertilizer application. May be co-applied with liquid fertilizers, herbicides, insecticides, fungicides, and adjuvants in accordance with all product labeling requirements. Use product within 6 days of mixing into solution. Agitate well before use. Product may be used on all soil and crop types.

APPLICATION RATES

Apply **FADE AWAY** at 16 fl oz/A.

Shake Well Before Use

MIXING INSTRUCTIONS

Fill tank with one-half of the desired amount of liquid fertilizer solution or water. Add the required amount of **FADE AWAY** followed by additional tank mix partners in accordance with all product labeling requirements. Add the remaining amount of liquid fertilizer solution or water while allowing the agitation to thoroughly mix **FADE AWAY** into the solution. Always perform compatibility or jar test with all tank mix components, before mixing large quantities.
