

**MAXIMUM PROTECTION.
STRONGER POTENTIAL.**

Most Complete Fungicide Protection

Broad-spectrum disease management with a comprehensive fungicide package.

Stronger Stand Establishment

Helps promote uniform emergence and a healthier plant population.

Superior Root Protection

Defends developing roots from early-season disease pressure, supporting vigorous growth.

Multiple Modes of Action

Delivers layered disease protection while reducing reliance on a single chemistry.

Excellent Resistance Management

Supports long-term fungicide effectiveness through a diversified mode-of-action strategy.

Target Pests:

Phytophthora, Pythium, Fusarium, Rhizoctonia, Anthracnose, Seed-borne Phomopsis, Seed-borne Sclerotinia, Aphids, Overwintering Bean Leaf Beetle, Leafhopper, Leafminer, Thrips, White Grubs, Wireworm

Active Ingredients:

Fungicides (Ethaboxam, Fludioxonil, Fluxapyroxad, Mefenoxam and Thiabendazole)

Insecticide Imidacloprid

Modes of Action:

Fungicide Groups 22, 12, 7, 4, 1

Insecticide Group 4A

Use Rate:

1.57 fl oz/ 140,000 seeds
