

**PROVEN WEED
CONTROL ACTIVE
INGREDIENTS IN
ONE PREMIX**

Broad Spectrum Control

Highly effective preplant and preemergence control of tough resistant weeds including Waterhemp and Palmer Pigweed.

Unique and Proven Premix

A liquid premix of Sulfentrazone and Pyroxasulfone, two highly effective active ingredients.

Low Use Rate

Low use rate with proven results.

Weed Control Flexibility

Preventative single application, allowing greater flexibility application in season.

Labeled Crops:

Soybeans, Sunflower, and Dry Peas

Application Timing:

Preplant Burndown, Preplant Incorporated, Preemergence

Target Weeds:

Annual grasses, Lambsquarters, Pigweed, Waterhemp, Palmer Amaranth, Black Nightshade, Ragweed, and Velvetleaf

Active Ingredients:

Pyroxasulfone + Sulfentrazone

Modes of Action:

Seedling Shoot Growth Inhibitor + PPO Inhibitor

Use Rates:

By soil texture.

Organic Matter	Coarse	Medium	Fine
	Annihilate Herbicide - fl oz/A per year		
Less than 1.5%	6 - 6.9	6 - 9.8	7 - 11.5
1.5 to 3%	6 - 6.9	6 - 9.8	8 - 11.5
More than 3%	6.9	7 - 9.8	8 - 11.5
