

**Best in class  
Phytophthora and  
Pythium protection  
in a custom blend.**

### **Early Season Protection**

Outstanding protection against *Phytophthora* and *Pythium* as compared to Metalaxyl alone

### **Enhanced Seed Borne Disease Protection**

Contains Thiabendazole, an effective compound against seed-borne diseases

### **Enhanced Root System Support**

Unique mode of action that creates a complete zone of defense under ground

### **Flexible Planting Support**

Allows growers to plant in cool, wet soil or warmer environments

### **Resistance Management**

Two sites of action to decrease dependence on metalaxyl alone

### **Excellent Formulation**

Excellent treatability performance with no sticky beans, drum clean-out or seed bridging

### **Target Pests:**

*Phytophthora*, *Pythium*, *Fusarium*,  
*Rhizoctonia*, *Phomopsis*,  
Seed-borne *Sclerotinia*, Soybean  
Aphids, Overwintering Bean Leaf  
Beetle, Thrips, White Grubs, Wireworm

### **Active Ingredients:**

**Fungicides:** Ipconazole, Ethaboxam,  
Mefenoxam, Thiabendazole

**Insecticide:** Imidacloprid

### **Modes of Action:**

**Fungicide Groups:** 3, 22, 4, 1

**Insecticide Group:** 4A, Neonicatenoid

### **Use Rate**

1.46 fl oz per 140,000 seeds
