

Proprietary blend of vegetable oils, modified oils, fatty acids, alkoxyated triglycerides, alkoxyated alcohols, and ionic emulsifiers 100%

TRACKER™ is an advanced fungicide adjuvant that uses enhanced droplet coverage technology to maximize the efficacy of the aerial application.

TRACKER is specifically designed for aerial applications at all crop growth stages.

Approved for corn applications between V8-VT timing.

TRACKER IMPROVES

- Application Placement
- Humectancy
- Leaf & Cellular Penetration
- Fungicide Performance
- Wetting/Spreading
- Insecticide Performance

MIXING ORDER

- Fill tank half full of water and begin agitation.
- Add the required amount of TRACKER while agitating.
- Continue filling spray tank with water and add the tank mix components as directed on the pesticide label(s).

RATE

4 oz. / A

PACKAGE

2 x 2.5 gal.
